

## Press Release

### Metallux - Construction of high-tech business premises

Korb, Germany, 2008-10-22

Metallux AG will move from Korb to Leutenbach-Nellmersbach by early 2010. During the first part of 2009 construction of 12 000 m<sup>2</sup> high-tech business premises will commence.

Founded in 1968 Metallux AG is one of the leading worldwide manufacturers of electronic Components in Thick-Film Technology. The comprehensive product portfolio consists, amongst others, of Potentiometers, Sensors, Resistors and Joysticks. The company, led by father and son team Oberascher, experienced a rapid growth over the last few years and in the meantime has branches and partnerships in the USA as well as in China. The company is well known for its innovative capabilities and high customer focus.

The board of Directors Arnulf Oberascher, Andreas Oberascher and Andreas Karaus also look favourably moving to Leutenbach." Here we have optimal conditions. An ideal location directly accessible to the S-Bahn (Rail) and B 14 (National Road).
